

Arms Around The Child believes in a world where Orphaned children can have their lives transformed into a bright future. We provide them with the safe loving homes, education, stability and pride they need to survive in a lonely world.

Most of our children are infected with HIV, abandoned, or at risk of child abuse. We show them they can survive and indeed rise from the ashes of their past.

We want to empower the Orphaned children of the world through programs and advocacy and to bring children's rights into the spotlight and move Governments around the world to pay attention.

We support the integration of children back into kind families and give homes to those who are alone.

Protecting children from harm to find a pathway to their dreams is what we exist for.

## THE FACTS

132+

Million orphans  
worldwide

17.8+

Million AIDS  
orphans worldwide

3.5

Million children  
infected with HIV

150

Million children  
call the streets  
their home
